

If you are a service provider, adilas.biz can make your life easier!

Attention General & Professional Service Providers

Introducing a real-time accounting and operations system that can speed up your work flow and help fulfill all your business needs! The system is called "adilas", an acronym for "all data is live and searchable". The system is designed to help your business make a seamless transition between operations and accounting while still providing a great experience for your customers and/or clients. It is very simple to use, yet incredibly flexible, versatile, and extremely powerful.

Options offered by using the adilas system:

- Internet-based - Open 24/7 which allows you to view all your numbers and customer/client documentation from anywhere in the world, even from home.
- Permission-based - Options for receptionist, staff, technicians, secretaries, book keepers, partners, and admin personnel. Over 100 permissions to choose from.
- CRM or Customer Relationship Management System - Log all activity with customer/clients. Set follow-up reminders, manage credit terms, view full history and documentation per customer/client using customer photo/image gallery.
- Monies coming in - Know exactly who owes you money (receivables or A/R's) and the aging and activity on their accounts.
- Monies going out - Who do you owe money to and when do you need to pay (payables or A/P's). Options for reimbursements, petty cash, and expense accounts.
- Create custom service items and/or procedures for use on invoices and quotes.
- Full inventory tracking also included (if needed). Ability to mix service and inventory items on same ticket.
- Quote all your customer/clients - Ability to e-mail or print out the quote. Convert the quote to an invoice. Quote while on the road or onsite with customer's own computer. Just login, create, save, and print.
- Accept credit card payments over the phone, onsite, while on the road, or at your location of business. All fully integrated into the system.
- Payroll - Pay your staff based on hourly, commission, salary or any combination of these. System will track and reward staff with proper pay programs.
- Unlimited invoices, payments, statements, deposits, expenses, remote check writing, digital time cards, and much more.
- Upload documents and photos - Scan in all your documentation to be viewed at anytime in the future for a 'paperless' office. Simplify your filing.
- Transition Invoices - Work in progress, work order tickets, custom jobs, etc.
- Set up and manage reoccurring billing and invoices.
- Financials - Income statement (P&L) and balance sheet. Know where you stand on the reasons for being in business.
- Real-Time Numbers - Be able to give your accountant numbers at any time and close out each and every month.
- Special pricing for all service providers - We can help you save money and run your business better!
- No cost to see if adilas can help you. Give us a call!
